

Graduate Credit Certificate Program for CSSIA Classes

Graduate Credit Courses

The Computer Science Department is offering Online Graduate Credit classes for College Teachers participating in the CSSIA Train the Trainer Classes

Courses include all prior and current training offered by CSSIA and CISCO Networking Academy Instructor classes.

To receive graduate credit for these courses must hold a bachelor's degree and you will need to apply online to UIS as a non-degree seeking graduate student in the Information Assurance Graduate Certificate Program. <http://www.uis.edu/admissions/applyToday/> Please be sure to select Graduate Non Degree Seeking link.

***** Please be sure to indicate in the dropdown box for program that you select the Certificate in Information Assurance the Code is 40PH4024NDEU**

Faculty registering for these classes will pay e-tuition and fees associated with online degree programs.

Information about E-Tuition and Fees are posted on the web at <http://www.uis.edu/registration/tuition>

Once you have completed the CSSIA or Cisco training class and have been admitted to the Graduate Certificate Program, you will need to contact Dr. Ted Mims to register for the graduate credit class at UIS. His email is tmims1@uis.edu and you may contact the Computer Science Department Administrative Assistant at csc@uis.edu

Course Completion Requirements:

In addition to attending the lectures and completing the laboratory exercises, class participants will be required to develop a plan for including the course contents in the curriculum at their colleges. The plans will include completing course proposal forms and a formal written plan that describes how the course will fit into an existing or new curriculum. Class participants will also be required to develop and submit an instructional teaching module that includes electronic slides and laboratory exercises for one of the topics covered in the class. This additional work will require 10-20 hours beyond the time spent in class lectures and laboratory exercises to earn the graduate credit.
